Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	Dear Sir/Madam, I am writing to formally object to the above planning application. My primary concern relates to the location of the proposed development, which is in close proximity to local schools and a public park. This area is already subject to high levels of traffic, particularly during school drop-off and pick-up times. The addition of further development will inevitably increase vehicle movements, exacerbating congestion and posing heightened safety risks for pedestrians, especially children and families who regularly use these routes. In addition, the surrounding road infrastructure is not equipped to handle a significant increase in traffic volume. Increased congestion is likely to lead to longer delays, reduced air quality, and a decline in the overall safety and accessibility of the area. Another serious concern is the existing issue of litter. The area already struggles with waste management, particularly around the park and nearby streets. Introducing further development is likely to increase footfall and activity, which in turn will contribute to more litter and place additional strain on already stretched local services. For these reasons, I strongly urge the council to reconsider this application. The cumulative impact on traffic, public safety, environmental quality, and local amenity would be significant and detrimental to the community. Thank you for taking my concerns into account.
