Reasons for comment:

Comments:	<p>The proposal in its current form is too large and unnecessary for the area. Istead Rise is a small settlement with very limited amenities it is highly likely that the vast majority of the residents will have to travel by car to get here.</p> <p>The proposal also builds on green-belt and not all of the development is built on previously developed land. The worse part about the development is the location 154 new homes would increase the population of the area by approximately 10 to 15%.</p> <p>I am not against new development in the area but only against the existing proposal based on the sheer scale of the development and the fact that it builds on land that is undeveloped.</p> <p>I would support a significantly scaled down version that reflects the needs and that only builds on land that is previously developed this proposal is nothing but urban sprawl and should be refused. I understand the need for housing but 154 homes is too many given the lack of amenities.</p>
