Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to this development. There are too many potential plans not being reviewed in conjunction with each other. This plan specifically will join Meopham to sole street which means two villages will become one town and with it a loss of identity. The road for access is already a terrible road to drive and especially to navigate out on to Wrotham Road. Thanks only going to get worse with further development. There is very little parking for the houses which means street parking - dangerous for pedestrians. The roads and access is already dangerous. This will be worse and dangerous for children going to school. The area is known and well documented as having poor drainage and at risk from flooding. There is already road flooding very frequently with rainfall and with nowhere for this water to go now this will only be worsened. There are not enough school places or doctor places at the surgery. In summary the development will ruin our village, join it to another, damage our wildlife and bring danger to our children. Over development brings no benefit to anyone aside from developers.

Kind regards
