Details of the pre-application advice received

Pre-app considered the options to create a 6 bedroom HMO or to create two number two bedroom flats. In both cases the creation of a light well within the more recent single storey section of the building was considered.

The pre-app was negative in that it really only considered that the ground floor should remain commercial in use with the upper two floors in residential use so didn't take account of the building having been marketed for 7 years, having not found a buyer in this time and that it is necessary to consider alternative uses now so that the building finds an economic use.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

(a) a member of staff

(b) an elected member

(c) related to a member of staff

(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
