Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I totally object to this application 20251081 on grounds of proximity to St John's school and the open space play areas used by the children living in the area . I would fear for the safety of children being exposed to the persons using the development . The area is a quiet residential street many houses in close proximity to the development and this would impact the residents of the area of any disruptions from any incidents that WILL occur from this development from police being called . I would fear to leave my house at night not knowing what type of people would be using this development . I would have to increase the security of my house for fear of my property being entered by somebody possibly mentally unstable. I would have to make sure my doors and windows are locked even when i am at home . I should be able to live in my home without fear yet by allowing this development to go ahead I would genuinely be reluctant to step outside my own house to use the local shops. The development is totally out of character to the area and will only bring negative feeling to all in the area . I fear for children being influenced by residents of the development And being exposed to drug taking / trafficking and drug paraphernalia being left in areas where children play . I would like to be informed of any planning meetings for this application so that I
