Reasons for comment:

Comments:	<p>This development would result in a lot of extra traffic entering an already narrow and congested road. It is adjacent to a special needs school and there is no doubt that during construction the associated noise would be very distressing for vulnerable children. The increased traffic would also pose an extra hazard to these children and their parents.</p> <p>why build on vaulable high quality agricultural land when the UK has a rapidly increasing population and is already in a position of poor food security. To build on this land for this reason alone is utter madness.</p> <p>Where is the demand for new housing in Meopham? This development will do nothing to help homeless people or those on low incomes. Such development will seriously impact the rural nature of Meopham.</p>
