Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I wish to strongly object to this development on green belt land. Any such development would cause irreparable damage to wildlife within this area and ancient woodland and protected species. The A227 is already struggling to cope with traffic and a sink hole has occurred in the past, this traffic will only increase in both volume and weight with such a development not only causing traffic issues but also air quality issues. This area has little to no efficient transport links to other transport hubs to take the pressure off. This area is well known for its flooding issues which would only get worse if this planning is allowed to proceed. Villages should maintain their individual characters and not be merged into one large development. Local infrastructure is already struggling to cope. Please do not allow this development.
