Stance:	Customer made comments in support of the Planning Application

Reasons for comment:

Comments:	I believe that there is a need for suitable properties, such as bungalows, for a generally ageing population in this location. The local public transport amenities could help either an elderly resident or someone with reduced mobility to remain independently in their own home for longer, as they would not be reliant entirely on their own transport. The continued increase in population within the Gravesham area leads to an higher demand for housing and this planning application will help to increase the housing available, whilst remaining in keeping with the local area by not being on too large a scale. There have been similar plans approved in the local area to split properties on this size of plot into two dwellings.
