Reasons for comment:	
Comments:	This will change the area completely and destroy the feel of the village. We do not have the space for this, road net works and increase in traffic is an issue in itself and what if the lower thames crossing happens - the A227 is already under pressure with cars and traffic. We walk our children to school and already the anxiety it induces with speeding and density of cars. Do we have space in the schools?! The reputation I hear of the secondary school isn't what it used to be and this is just even more pressure on them. The pressures we have for doctors availability and the strain Darent Valley Hospital I know as I work there as a nurse is already getting to the point of breaking point on staff - rarely does the A&E department have less than 100 people in and often we are working with patients in corridors, waiting times soring and bed capacity is often within the minus numbers for days! Please just don't do this - for the sake of our village and for everyone that loves it dearly.

Kind regards
