Reasons for comment:	
Comments:	Further development on green belt land is not needed. If council do EIS assessment they will realise that the impact locally will be extensive. Local doctors already overloaded and difficult to get appointments, schools over crowded, parking at shops, schools etc already impossible. There are many brown field sites in Gravesham that need to be used before we devastate the countryside. Where will our food come from if you build on these greenfield sites. The local roads are very narrow and not suitable for more heavy traffic. Where will all the wildlife go? Our local MP seems to think the parishioners should buy the land. How pathetic is that! Our green and pleasant land is vanishing by the day. To say that all the proposed building won't have any adverse effect on the area is laughable. Please make sure an EIA is undertaken by someone without an axe to grind.

Kind regards
