Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I can't believe another application for more houses. These all need to be considered together. Its green belt we are taught to protect this at school and it there for a reason to protect wildlife and urban sprawl. This isnt grey belt please don't pretend it is. The sheer volume of people and cars will destroy the wildlife and less green spaces means worse mental health. I have to drive for work there are no regular buses and they are expensive. I could not afford to take a mimimum wage zero hour contract at bluewater due to being unable to get there and had to rely on [REDACTED] driving me. The new people living in houses will have same issues. They will all need a car meaning extra 1500 all going through wrotham road and there is already traffic jams. How many times has this area flooded loads and you cant pass another large car in the lanes it's dangerous and so many cars reversing back. The fields act as natural flood mitigation and carbon sump. Also the war could escalate and we need to have land left to grow food and feed everyone. Has anyone at minute got a doctors? No they constantly told have to go to a&e for non urgent things. This village cannot take that amount of houses full stop.

Kind regards
