

- Proposed first floor showing 3 flats.

- Proposed second floor showing 3 flats along with new addition over Windmill Street entrance.

- Proposed third floor showing 2 flats, using corner turret features along with terrace and new build area to the rear.

Post Pre-application Feedback Sketches

Subsequent to the Gravesham Council Pre-application feedback, and working in conjunction with our Heritage consultant, HCUK Ltd, we then produced the below sketch plan layouts, reducing the number of flats to five, keeping more internal walls along with three existing staircases, which also resulted in there being no changes to the respective elevations, other than changing four windows to designs that are in keeping with the existing elevation windows.

- Proposed ground floor retaining entrance stair off Windmill Street.
