Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	As the owner of a house directly opposite as well as two of the garages in the block I support the application. The communal area had gradually become a no go area with people using it as a public convenience, fly tipping site as well as for other anti social activities. The installation of the gates and the clean up of the communal part has benefited not only the people who use the garages but also the residents in the local vicinity by ensuring the area is clean, odour free & free of drug paraphernalia, all at no cost to them, the local council or involvement of any authorities.

Kind regards
