Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Meopham is a village with a village infrastructure. Water shortages, power outages traffic concerns. An enormous extension on the end of a small village will over run the existing village fundamentally destroying the villagers day to day issues worsening a whole community not to mention the horrendous environmental impact. There will need to be a new road a more frequent train service and new gps shops to accommodate the formidable issues this will cause. This will transform the village to a city state and fundamentally damage everyone who already lives here making there lives considerably worse. Not one good thing can come from this. It's all about quotas and hitting government targets. The only viable sensible option is replanning and rebuilding a new town or village elsewhere. The government and councils simply want to kick the can down the road causing further issues for generations of people across the country. Strongly opposed!

Kind regards
