Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	<ol style="list-style-type: none"><li>1. For the likely number of cars (potentially around 700) plus delivery and service vehicles generated by the proposed development would add to very large volumes of traffic on already busy public roads in the vicinity.</li><li>2. The junction into and from the proposed development would be hazardous in a already congested area. Also existing road junctions in the vicinity would be made more dangerous and congested. More people from the proposed development would likely use the shopping area adding to congestion.</li><li>3. Cycling would be discouraged even more due to the increase in hazard for the Green Lane junction and greater volume of traffic on Wrotham Road and Green Lane. It would also be more dangerous for pedestrians wanting to cross Green Lane, Wrotham Road, including parents with children coming to school and people on foot coming to shop or walking along the two roads.</li></ol>

Kind regards
