Assessment Note - although there was enough information to assess the Prior Approval Extension Application, some of the table above has been answered N/A as these parts of the GPDO cannot be definitively answered from the documents and plans provided. The proposed single storey rear extension would need to adhere to all of the above to be considered permitted development and further information would be required in the event of a submission to obtain a Lawful Development Certificate

Under Class A.1 (g) of the Town and Country Planning (General Permitted Development) (GPDO) (England) Order 2015, as amended, a single family dwelling can extend beyond the rear wall by 6 metres in the case of a detached property, as long as it does not exceed 4 metres in height.

As set out in the GPDO, Class A.4 (2), the developer has provided sufficient information to support the application.

The information provided show the proposed development is within the parameters set out in the GPDO; 6 metres deep, a maximum height of 2.90 metres, with an eave height of 2.90 metres.

The adjoining properties were consulted in accordance with A.4 (5) and a representations was received. Under Class A.4 (7) of the GPDO the impact on neighbours' amenity requires investigation; the material planning concerns raised are set out in the Neighbouring Properties section above.

In terms of overshadowing and neighbouring outlook, the only properties that may be impacted by the proposed development would be the dwellings located immediately to the East (26 Coulton Avenue) and to the North (30 Coulton Avenue). It is not considered that any detrimental overshadowing, loss of light or impact on outlook to the neighbouring occupiers will occur. This is due to the fact that the proposed extension is of a modest height and as such it is considered that this development would not unacceptably overshadow the adjoining property or result in a loss of light which could justify the refusal of the submission.

It is considered that the details and documents provided with the application are sufficient and no further information is required under A.4 (8) to determine the proposed development.

Conclusion

The proposed development complies with **THE TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT) (ENGLAND) ORDER 2015, AS AMENDED**, and it is considered **PRIOR APPROVAL IS NOT REQUIRED**, subject to the imposition of informatives relating to the extent of this prior approval, the development to accord with the information provided, the time limit for completion, notification of completion and requirement to comply with Building Regulations and Party Wall Act.

Recommendation: PRIOR APPROVAL IS NOT REQUIRED
