| Reasons for comment: | |
| Comments: | <p>120 more houses in an area that struggles with congestion on a daily basis at school drop off and pick up, Longfield Road is narrow (and parking on this road from residents makes it narrower) and these additional houses are going to make this road more dangerous, increase congestion and traffic flow with the speed of traffic causing concern and risk of accidents.</p> <p>The proposed land has been farmed for centuries and contributes to food production. If this land is allowed to be built on not only will we lose the local food production the change in land use will also create flooding to the roads in bad weather with drains that already struggle.</p> <p>The building of 120 houses will also take away natural habitat for wildlife.</p> |

Kind regards
