| Comments:            | Local roads are already struggling with traffic flow especially when road work is necessary causing hours of congestion leading to country lanes being used as a cut through only for these to become grid locked, an additional 350 houses will potentially bring around 700 more cars to roads which are already unable to cope. Rainy days cause flooding in certain areas of the A227 with the drains along the road not able to cope and some drains regularly being mislodged, additional houses will create further flooding The parade of shops is already an accident black spot which will only get worse.<br>I do not believe the area can cope with these proposed property developments |

Kind regards
