Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	<p>A significant Increase in traffic on an already very busy road. The local roads either side of the development already struggle with the volume of traffic (especially if there are problems on the A2 as they are used as cut throughs). They are country roads with very tight 2 lanes, no pavements and poor maintenace. The site is located opposite the parade of shops which is notorious for it's lack of parking and accident black spot. The site is also very close to Meopham Primary school, again a very dangerous area for parked cars during school drop off/collection time. The site will potentially see an increase of 700 cars (assuming 2 cars per household) but the reality in a rural area with limited buses, many homes will have up to 4 cars each.</p> <p>The proposed building area is green belt land and currently farmland.</p> <p>The local infrastructure (Meopham GP and schools) are not sufficient to support the extra housing in this proposed development area in addition to other development also proposed within Meopham (20251116 &amp; 20250992)</p>

Kind regards
