Reasons for comment:	
Comments:	<p>The local roads either side of the development already struggle with the volume of traffic (especially if there are problems on the A2 as they are used as cut throughs). They are country roads with very tight 2 lanes, no pavements and poor maintenace. The main access road to the site, the A227 is already bust at peaks time sand struggles with the volume of cars parked up near the site during school drop off/pick up at Meopham Primary located opposite. It is also opposite the parade of shops which see very high volumes of visitors constantly throughout the day, all turning out onto the A227 opposite the proposed site. This is already a notorious black.</p> <p>The proposed site is greenbelt land.</p>

Kind regards
