Reasons for comment:

Comments:	The proposed development is in a totally unsuitable and unsustainable location in close proximity to a bend in a narrow lane. The whole site straddles Sole Street and Meopham borders and is outside the envelope of both village settlements. The proposed substantial development would set a precedent for development of susceptible green belt land in this vicinity, effectively merging the villages of Meopham and Sole Street and precipitating urban spread. Unauthorised preparatory work has already destroyed areas of hedgerow and wildlife habitat, leaving hacked trees and piles of builder's rubble dumped along the lane verges. Building, roofing, industrial waste disposal and property development businesses known to be associated with Whitepost Farm occupants suggest this practice could continue, thus degrading the nature of this green belt special landscape area.
