Reasons for comment:

Comments:	This proposed development will increase the volume of cars in an already busy village . Norwood lane is a small single track road and an increase in the number of cars will make it a dangerous road to drive along. It is difficult to see around the corner when joining Green Lane and more cars increase the risk of accidents. This is Farm Lane that would be converted to housing with the loss of green land and a gradual joining of Meopham to Sole Street to create one large conurbation instead of asseverate village and Hamlet. If driving from green Lane to the A227 there is a pinch point at Tradescantia Drive which is already dangerous and this would only increase with the increase in cars. the additional housing will only increase the already strain on the public services provided by the village and therefor should not be allowed.
