| Comments: | Norwood lane would never work with more houses down it. Most of the people that live in the village who don't already live down that way know that road as a 'cut through'. Coming out of that road onto sole street is already an issue not being able to see other cars coming when heading towards sole street, or the other way towards camer park. It's a very tight and narrow road going towards sole street. It's also completely destroying good farmland that should be used efficiently and productively for the use of the village. Not as a building site for houses that will be put up so quickly for them to cause nothing but issues. The area physically couldn't cope with these houses. |

Kind regards
