Reasons for comment:

Comments:	I live on Tennyson Walk and have viewed the plans online. According to the plans it looks as if one neighbour appears to loose privacy to the rear of their property by two new windows in the proposed extension which would need obscure glass fitted. I wonder if the planning application goes ahead, should number 45 erect a fence to give privacy to the drive, garden and most importantly, the conservatory of it's neighbour. This brick building will of course take out natural light from the garden and the conservatory at number 47 as number 45 is a higher bungalow due to the contour of the road. Would the extension footings affect the garage at number 47 on the boundary line as they dig to put in footings. If the application goes ahead, I assume the homeowner/builder will be aware of building working hours and noise to the neighbourhood as well as giving consideration to all the residents that their driveways are not impacted by works vehicles and inconsiderate parking.
