Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I wish to formally object to the proposed development. The environmental impact would be significant. Planned development on green belt, agricultural land and the local landscape will have a significant environmental impact. This would cause damage to open countryside and harm to biodiverse wildlife on conservation land. There will be damage to both air and light pollution. We need to safeguard the countryside and prevent urban sprawl as well as preserve the character of local villages. There will be a significant increase to local traffic if this proposal goes ahead leading to traffic safety concerns together with increased pollution and declining local air quality. The proposed increase in population will place additional pressure on local amenities, currently all at capacity particularly healthcare facilities. A risk to the local community safety and wellbeing. In view of all the above concerns, the planned development should not go ahead. Risks and damage to the environment, wildlife, local community and local infrastructure should lead to planning permission for this development being refused.
-----------	---

Kind regards
