Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	We moved to Meopham 7 years ago at great expense because of its beauty, old English charm and its attachment to nature and its old world village mentality. People helping each other and saying hello to all you meet. Being surrounded by wonderful wildlife, we can see a regular crop being grown yearly, occasionally left to regenerate. I personally feel that the loss of any agricultural land to grey field is not beneficial to Britain's farming and feeding the populous. All my life I have been safe with the knowledge that green belt was safe and any decision otherwise is short sighted in every way. I do not understand how it is feasible to build any additional housing in any area which is prone to flooding and has an electrical supply which often leaves us in candle light. Also, it is almost impossible to see a doctor and the nearest hospital, although fantastic is guaranteed a 6 hour wait. The congestion this development will cause on an already busy Wrotham road will cause carnage, not to mention the additional pollution. It is my understanding that there is a quota of new housing which is being forced on Kent mainly to accommodate displacement of inner London areas, which should be discouraged. However, this development is well in excess of the quota which has already been fulfilled by sights earmarked by the local council. I implore you to please see sense and listen to you constituents and retain our beautiful Meopham.
