Reasons for comment:

Comments:	Norwood Lane and Camer Road were quiet local roads. Currently they are dangerous, in very poor condition and far too narrow to ever consider potential increase in traffic likely by building a large housing estate, including buses. Making this application is totally unsuitable. The fact that a school is being considered would indeed treble the danger with regards to road safety. The area is being seriously affected by a range of applications with schools, doctors, dentists all struggling. Parking is almost non existent and local shops completely overwhelmed. The whole of the Meopham area is being ruined with its loss of green belt areas plus the increase in vehicles is causing havoc on the roads. Before any applications are considered the council should consider local services, strain on current roads and total lack of sensible parking. I moved to this area for its quiet country spaces in green belt area with beautiful walks, a quiet environment and a safe place to live and bring up a family. I love the open spaces as long as public transport was available and the local natural wildlife was absolutely perfect. It seems that the council do not give such views full consideration and are letting the occupants down. I question whether certain elected councils feel the needs of new occupants is more important than looking after the current occupants, in which case voting will be seriously be changed. Please look after the needs of the residents rather than just building up the numbers without considering improving roads, parking, shops, schools, doctors,
-----------	---

dentists etc. which are all suffering to a point where people are looking to move to a more considerate location.

Kind regards
