Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	1. This is a greenfield site and should not be developed. 2. There is an injunction on the land preventing this type of development. 3. It is a retrospective application. They work has already been undertaken contrary to Planning Law. 4. No consideration to retaining current wildlife habitats on site. There is a significant amount of wildlife, owls, buzzards, foxes, badgers, swifts, skylarks etc and next door to Camer Park, North Downs National Landscape and Luddesdown Area of Natural Natural Beauty and the Conservation area of Hook Green. This development will seriously damage biodiversity on site. 5. The flora/fauna on site has been damaged as well as locally within White Post Lane where several trees have had to be removed proving access to the site down a narrow lane is insufficient and this development should not be allowed. 6. The road outside this site has been left a complete mess, with trees cut down and shoved to the side of the road, piled earth mounds with no consideration for the aesthetics of this beautiful country lane. 7. Insufficient local statutory connections such as drainage, water, gas, electricity. 8. Lighting at night by bright lamps provides light pollution in a rural area. 9. The development is not in keeping with the local environment or neighbourhood.
