Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The area is entirely unsuitable for the proposal. The infrastructure is struggling at the moment and this is just one site proposed for building on. Our hospital (DVH) , gp surgeries, schools and nurseries cannot cope with the local population before this . We have to bear the extra traffic that will be generated by the Lower Thames Crossing and the A227 is constantly being repaired already. It is the only major road and is a village road not designed for the volume of traffic we already have. It is impassable in the morning and between 3 and 3.45 Monday to Friday due to the volume of traffic. The existing shops have little parking . The area cannot take such an increase in population and vehicles. There are many brownfield sites in Gravesham and empty houses. The proposed area is a home to many rare flora and fauna .

Kind regards
