Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I wish to strongly object to this planning application for a lot of reasons, here being a few. The development will generate additional vehicle movement adding further congestion. I feel insufficient assessment has been thought of regarding cumulative traffic impact to the village. Potentially of excess of 1500 cars entering and exiting the new development through narrow lanes, also increased amount of cars cutting through the A2 causing more air, noise and pollution. The scale and nature of the proposed development will cause negative affect for nearby residents, increasing activity, lighting and all general disturbances. The visual impact of the character of Meopham and Norwood Lane being a nice quiet village. Greater clarity is required on how environmental impacts will be set and how the development aligns with sustainability objectives. How will the doctor surgery cope when they can't cope with the amount of patients they already have. Our beautiful little village is just going to become a horrible ugly Town not a village with any greenery or fields!!!!.
-----------	---

Kind regards
