Reasons for comment:	
Comments:	This is Greenbelt Grade 2 Agricultural land arable crops This plan effects all wildlife which important to the environment. Greenbelt aims to prevent urban sprawl by keeping land permanently open preventing the merging of towns and villages. Preserve the character of villages. Green spaces trees and wildlife are important for our wellbeing and the environment. It should be protected for future generations. Once it is gone we will never get it back. Nobody wants to live in a concrete jungle. There is no infrastructure. Doctors are at full capacity. The roads are getting busier causing pollution. Access is proposed from Camer Road which is narrow and very busy. There is no access for disabled people or people with prams at the train station where there is a bridge. Open fields capture water reducing flooding which is a major issue on Norwood Lane and Wrotham Road. Open land acts as a Carbon Sump the best way to sequester carbon. Flood security. It is important to keep arable land for growing food so we can eat local produce.

Kind regards
