

Details of lighting

Clanna, Deans Lane, Meopham, DA13 0BS

The lights shown below are L x 190mm W x 30mm H x 50mm. They have been designed and selected to provide adequate lighting which is projected down to prevent glare or disturbance in countryside locations. They also use low glare LED bulbs.

They will also be located at the entrance to the site and on the front boundary fencing at equal intervals internally only. Attached is a specification brochure with full details.
