Description

Please describe details of the proposed development or works including any change of use

Proposed works include demolition of existing west kitchen and WC block and south porch. Following this is construction of a new, single storey, larger kitchen and WC block and entrance porch, which includes wheelchair accessible WC and entrance lobby, kitchen and store, in the same position as the areas of building being demolished.

The existing uPVC windows are to be replaced by timber windows incorporating an arched detail, picking up on the design of the existing east window.

A new window opening will be provided on the south side of the hall in place of an earlier door, previously removed and blocked up. On the north side, a

window towards the east end is to be replaced by a new escape exit door. The existing exit door will be removed and a high level window provided in the

northern gable.

The existing corrugated sheet metal roofing and external walling will be renewed and the new extensions are to also be clad in the same material.

The exception is the roof of the new kitchen block, in the NW corner of the site, which will be an EPDM (single ply roofing membrane) finished flat roof.

External ramps are to be provided for disabled access to the building.

There is no change of use planned.

Further details of the proposals can be found in the drawings and design and access statement included in this application.
