Dear Sir/Madam,

**Proposal:** Construction and operation of a 20MW Green Hydrogen Electrolyser and associated infrastructure.

**Site:** 20230906: - Kimberly Clark Ltd, Northfleet Mill Crete Hall Road, Northfleet, Gravesend, Kent, DA11 9AD.

Thank you for your letter dated 10 May 2024.

The developer proposes utilization of existing connections to the public sewers with a reduced flow being discharged to the sewerage network. This discharge can be permitted, if proven to be connected and it is ensured that there is no overall increase in flows into the surface water system. The applicant will be required to provide a topographical site survey and/or a CCTV survey showing the existing connection points, pipe sizes, gradients and calculations confirming the proposed flow will be no greater than the existing contributing flows.

All other comments in our response dated 16 October 2023 remain unchanged and valid.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
