Reasons for comment:

Comments:	<p>This proposal would mean another 1500 cars using the A227 as their main route in and out of Meopham. This road already comes to a standstill when there are incidents nearby on major roads or road works are necessary due to infrastructure maintenance.</p> <p>This site being proposed will potentially increase this small village population by one third which will put additional strain on an already overstretched GP surgery and nhs services in the area.</p> <p>Current bus services are very limited so commuters would need to drive and the trains are already overcrowded during rush hour and peak times.</p> <p>High grade farmland would be destroyed when we are already relying on increasing food imports.</p> <p>The developer is intending for the access for these new homes to be directly onto a small rural lane</p>
