Reasons for comment:

Comments:	I object to this development because Writham road is already so busy and will not be able to handle the extra traffic. I travel between Istead rise and Meopham to take my son to the secondary school and wait in half and hours worth of traffic every morning and afternoon as it is. Let alone when there are hundreds more cars using the same route. There are lots of country lanes around this area as well, which you cannot fit cars down both ways at the same time. More people will have to use them and they are not fit for heavy traffic. Also, the local hospital is way over used as it is without this, and the many other developments that are being proposed. The schools do not have the capacity for all of these developments either. People that live here, do so because they want to live in the country with beautiful green space. This is affecting peoples metal health with the worry of the impact this development will have on their properties and day to day lives. Not all developments have to be in the southeast!
