Our Ref: AC

Application - GB/20240091 - SCON3

**Location - Brookers Farm , Luddesdown Road, Luddesdown,
Gravesend Ken**

**Proposal - Engineering works to construct a formal car parking area
for Vineyard Farms Ltd office, winery and vineyard workers,
and other users of Brookers Farm.**

Thank you for your consultation in relation to the above planning application. I note that in highway terms the proposals do not differ materially from those presented under the previous planning applications for this site, which were considered acceptable by us. As previously noted electric minibuses will be provided, to transport workers to and from the vineyards. With this in mind, it is considered that the parking provision is acceptable for the additional staff associated with the site.

Consequently, I can confirm that provided the following requirements are secured by condition or planning obligation, then I would raise no objection on behalf of the local highway authority:-

- 1 Provision and maintenance of the visibility splays shown on the submitted plans with no obstructions over 1.05 metres above carriageway level within the splays, prior to the use of the site commencing.
- 2 Provision and permanent retention of the vehicle parking spaces shown on the submitted plans prior to the use of the site commencing.
- 3 A minimum of 10% of the parking spaces shall be provided and retained with active EV charging points plus a minimum of a further 10% of the parking spaces shall be provided with passive (ducting / cabling only) provision.
- 4 Provision and permanent retention of the cycle parking facilities shown on the submitted plans prior to the use of the site commencing.
- 5 Provision of measures to prevent the discharge of surface water onto the highway.

Informative: It is important to note that planning permission does not convey any approval to carry out works on or affecting the public highway.

Any changes to or affecting the public highway in Kent require the formal agreement of the Highway Authority, Kent County Council (KCC), and it should not be assumed that this will be a given because planning permission has been granted. For this reason, anyone considering works which may affect the public highway, including any highway-owned street furniture, is advised to engage with KCC Highways and Transportation at an early stage in the design process.

Across the county there are pieces of land next to private homes and gardens that do not look like roads or pavements but are actually part of the public highway. Some of this highway land is owned by Kent County Council whilst some is owned by third party owners. Irrespective of the ownership, this land may have highway rights over the topsoil.

Works on private land may also affect the public highway. These include works to cellars, to retaining walls which support the highway or land above the highway, and to balconies, signs or other structures which project over the highway. Such works also require the approval of the Highway Authority.

Kent County Council has now introduced a formal technical approval process for new or altered highway assets, with the aim of improving future maintainability. This process applies to all development works affecting the public highway other than applications for vehicle crossings, which are covered by a separate approval process.

Should the development be approved by the Planning Authority, it is the responsibility of the applicant to ensure, before the development is commenced, that all necessary highway approvals and consents have been obtained and that the limits of the highway boundary have been clearly established, since failure to do so may result in enforcement action being taken by the Highway Authority. The applicant must also ensure that the details shown on the approved plans agree in every aspect with those approved under the relevant legislation and common law. It is therefore important for the applicant to contact KCC Highways and Transportation to progress this aspect of the works prior to commencement on site.

Guidance for applicants, including information about how to clarify the highway boundary and links to application forms for vehicular crossings and other highway matters, may be found on Kent County Council's website:

<https://www.kent.gov.uk/roads-and-travel/highway-permits-and-licences/highways-permissions-and-technical-guidance>. Alternatively, KCC Highways and Transportation may be contacted by telephone: 03000 418181

Yours Faithfully

Director of Highways & Transportation

*This is a statutory technical response on behalf of KCC as Highway Authority. If you wish to make representations in relation to highways matters associated with the planning application under consideration, please make these directly to the Planning Authority.
