Reasons for comment:

Comments:

I wish to object to the proposed planning application no 20240155 regarding Purvil Wood Cottage. This property has already been extended with a conservatory and a brick extension of two rooms and an entrance hall. The proposed additional extension of a flat roof block is completely out of keeping with local building design. The comments in section 2.1 mention and show a line drawing of an L shaped extension whereas section 3.2 shows a plan of two rectangular blocks on separate sides. I do not feel that the proposal is clear. Whichever plan is correct I do not consider either to be necessary or an enhancement to the current house.

The property already has a large permanent building at the side, with domestic type doors and windows, comprising a double garage with workspace and storage. In addition there has also recently been a large unattractive warehouse type building erected which is 16feet high, with domestic type doors and windows.

We live in an area of outstanding natural beauty which has already been spoiled with this commercial looking warehouse and I do not consider additional building to be complimentary to the locality.

The small building to be demolished is some distance from the house so I question that this comes within the footprint of the original cottage.

In conclusion, I wish to reiterate my objection and do not wish to live next to any further despoilation of this countryside I wish to object to the proposed planning application no 20240155 regarding Purvil Wood Cottage.
