Dear sir or madam,

I refer to your letter informing me of [REDACTED] neighbour's application for planning permission.

1) I have no objection to the replacement of the front windows with identical wooden sash windows at 25 The Avenue.

2) However, since we live in a conservation area, I thought that since 2008, conversion of front gardens to driveway/hardstanding was no longer an option.

I would strongly object to a dropped kerb since parking is already so difficult, not only for residents, but particularly for their visitors and workmen's vans when house repairs need to be done.
