Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I would like to emphasize that the construction of these temporary buildings or houses, this is an extremely short-sighted and destructive policy, those leaders in our local council, who condone these ideas. This fact will lead to the destruction of the balance in our area, infringement of the freedoms and rights of those people who already live here. Creating a new hotbed of unrest in our area, which can lead to instability and destruction of the values of democracy and freedoms that have been created for a long time. It also runs counter to the policies of our government with the struggle for the environment and carbon dioxide emissions, destroying the small piece of nature that we have left.

Kind regards
