

OUTLINE OF CHANGES TO APPROVED SCHEME (REF:0221328)

There have been some minor changes to the approved scheme as a part of this non-material amendment application, however these have minimal impact on the overall design of the original scheme.

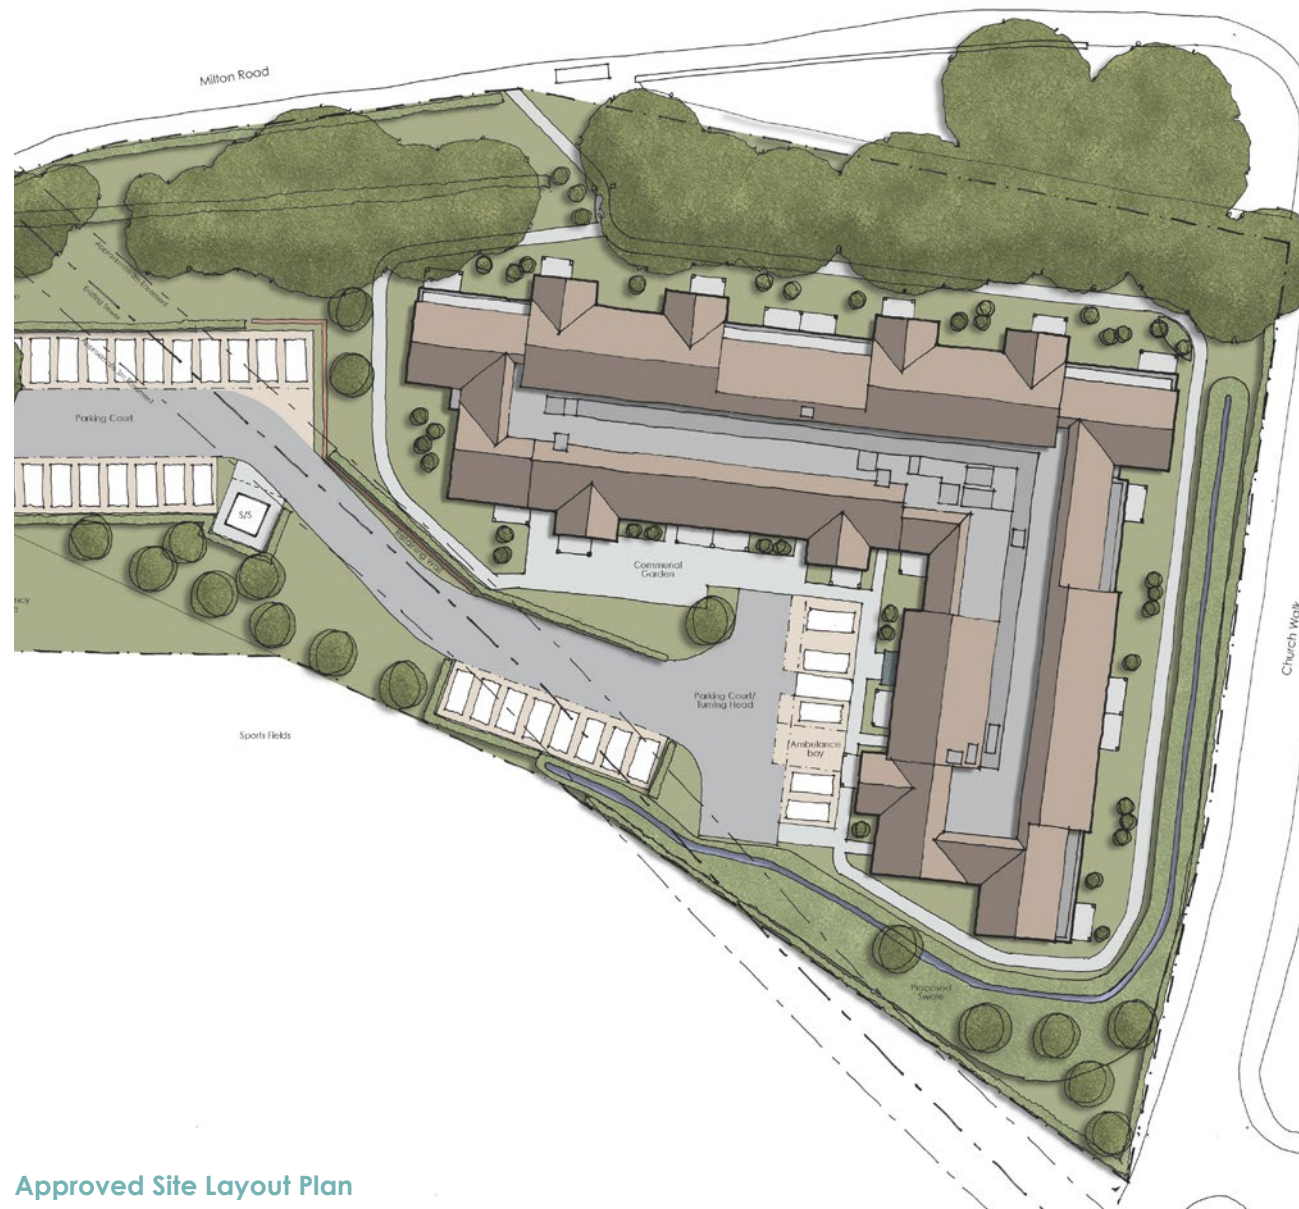

These changes offer a number of improvements to the elevations and finish to the scheme.

They do not however effect the overall design of the development, with the same design strategy, scale, position and overall building metrics as the approved scheme.

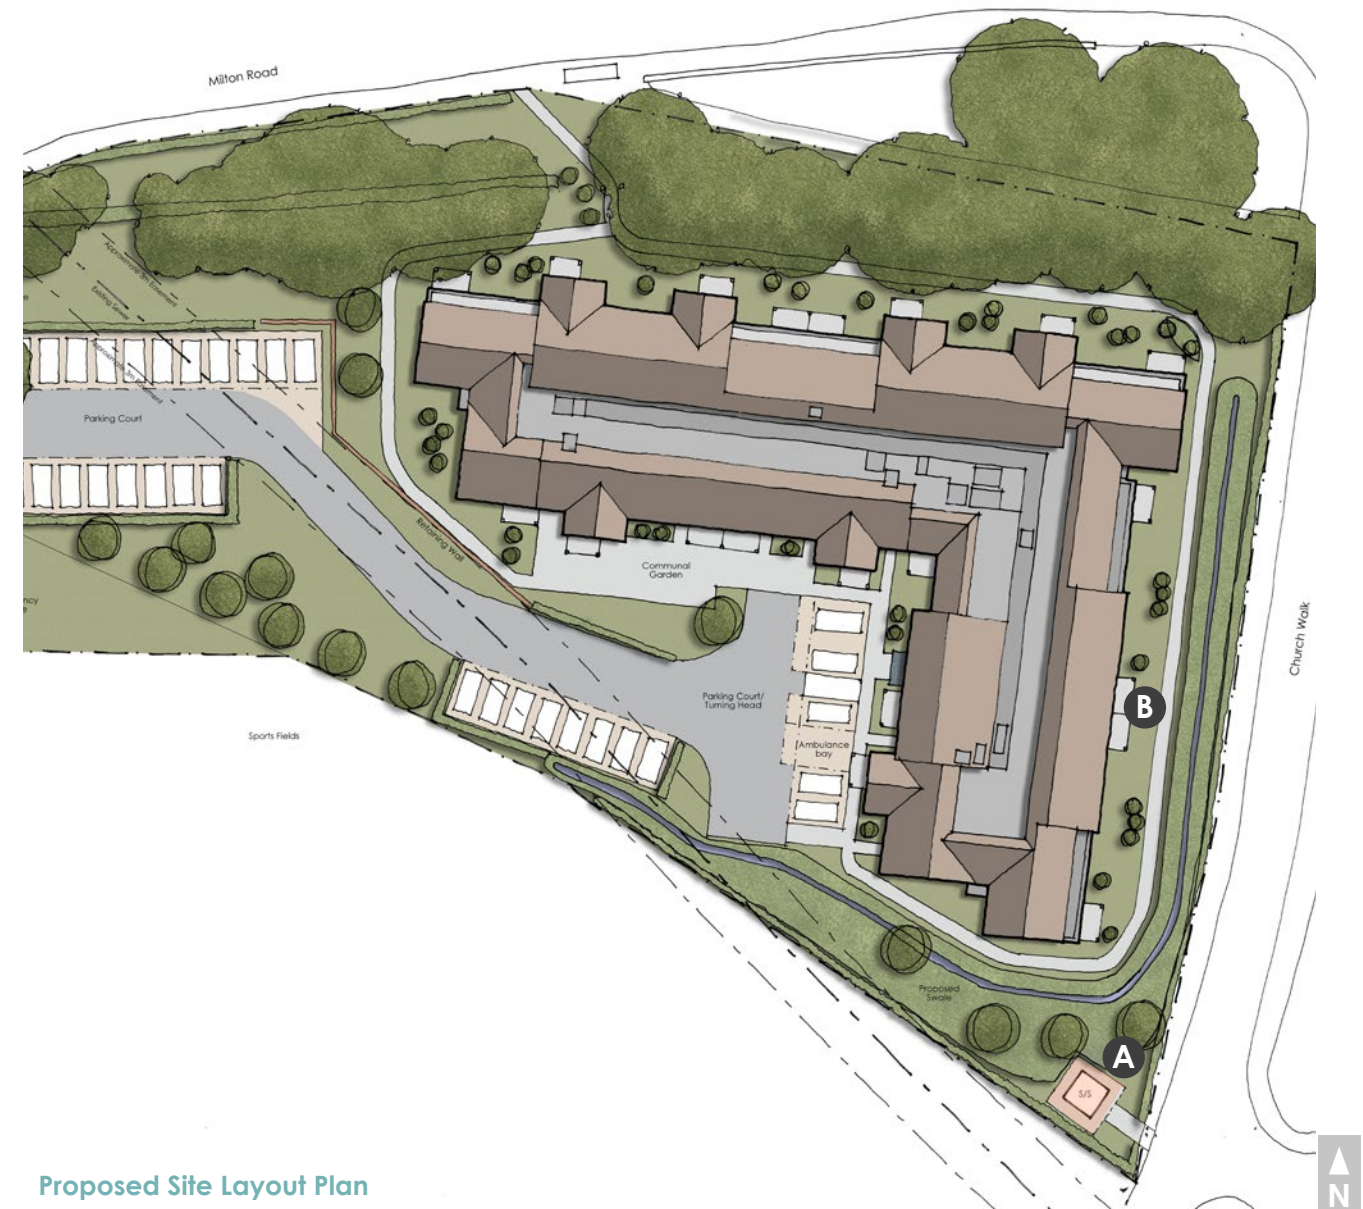

The minor changes are outlined below:

- A** Substation repositioned to southeastern corner of site, now accessed from Church Walk.
- B** Projecting units in central portion of eastern elevation to Church Walk aligned / projection removed, replaced with brick details.
- C** Balcony surrounds removed, replaced by simple balcony posts.
- D** Opaque balustrades to balconies replaced with glazed panels.
- E** Some window depths and location of transoms altered to improve proportions.

SITE LAYOUT PLAN

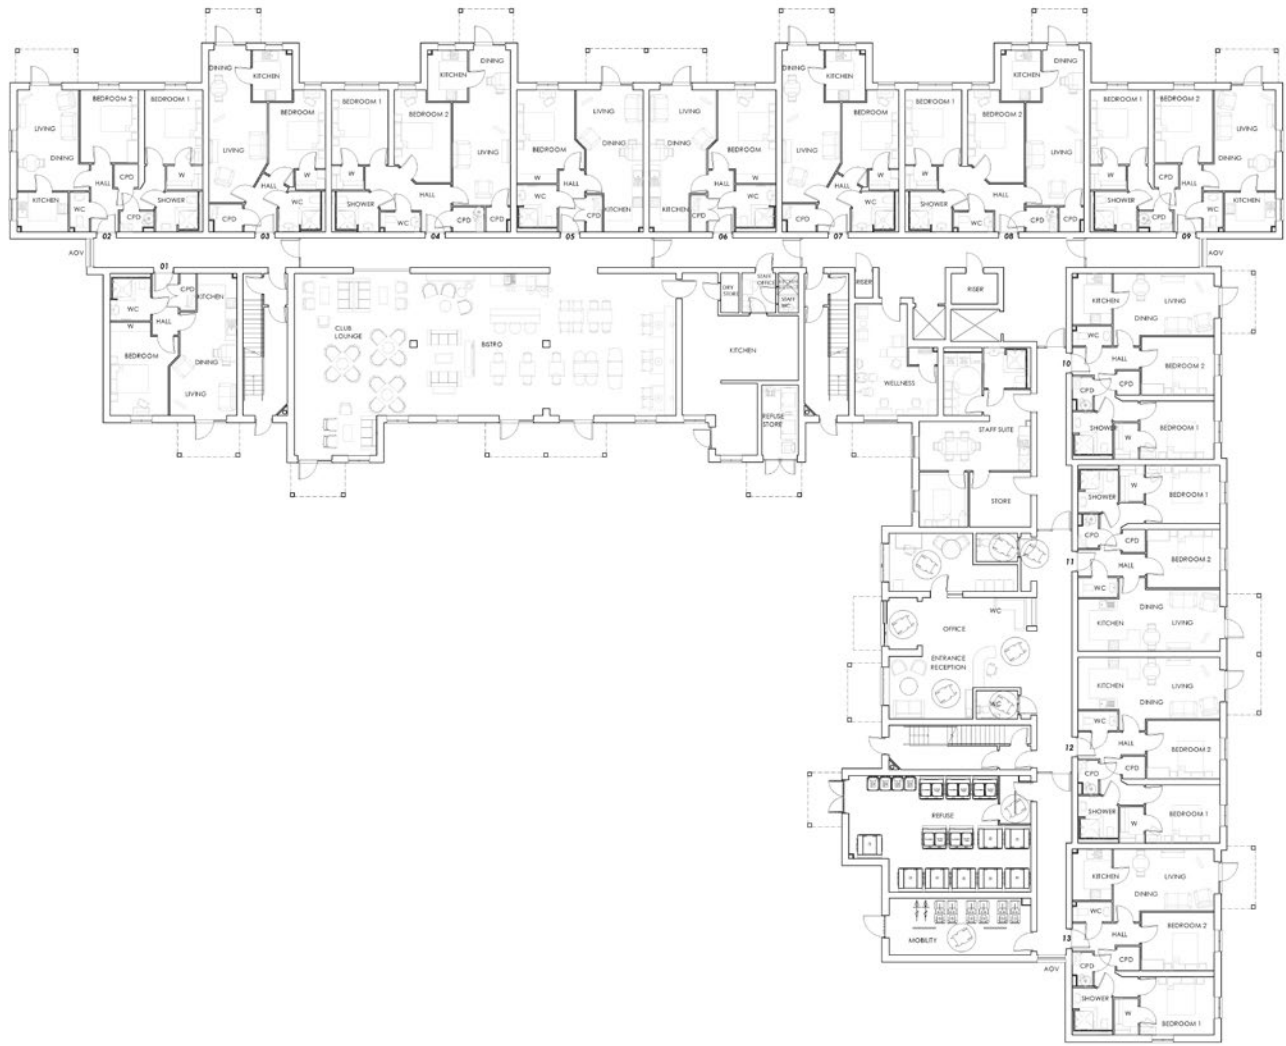

Approved Site Layout Plan

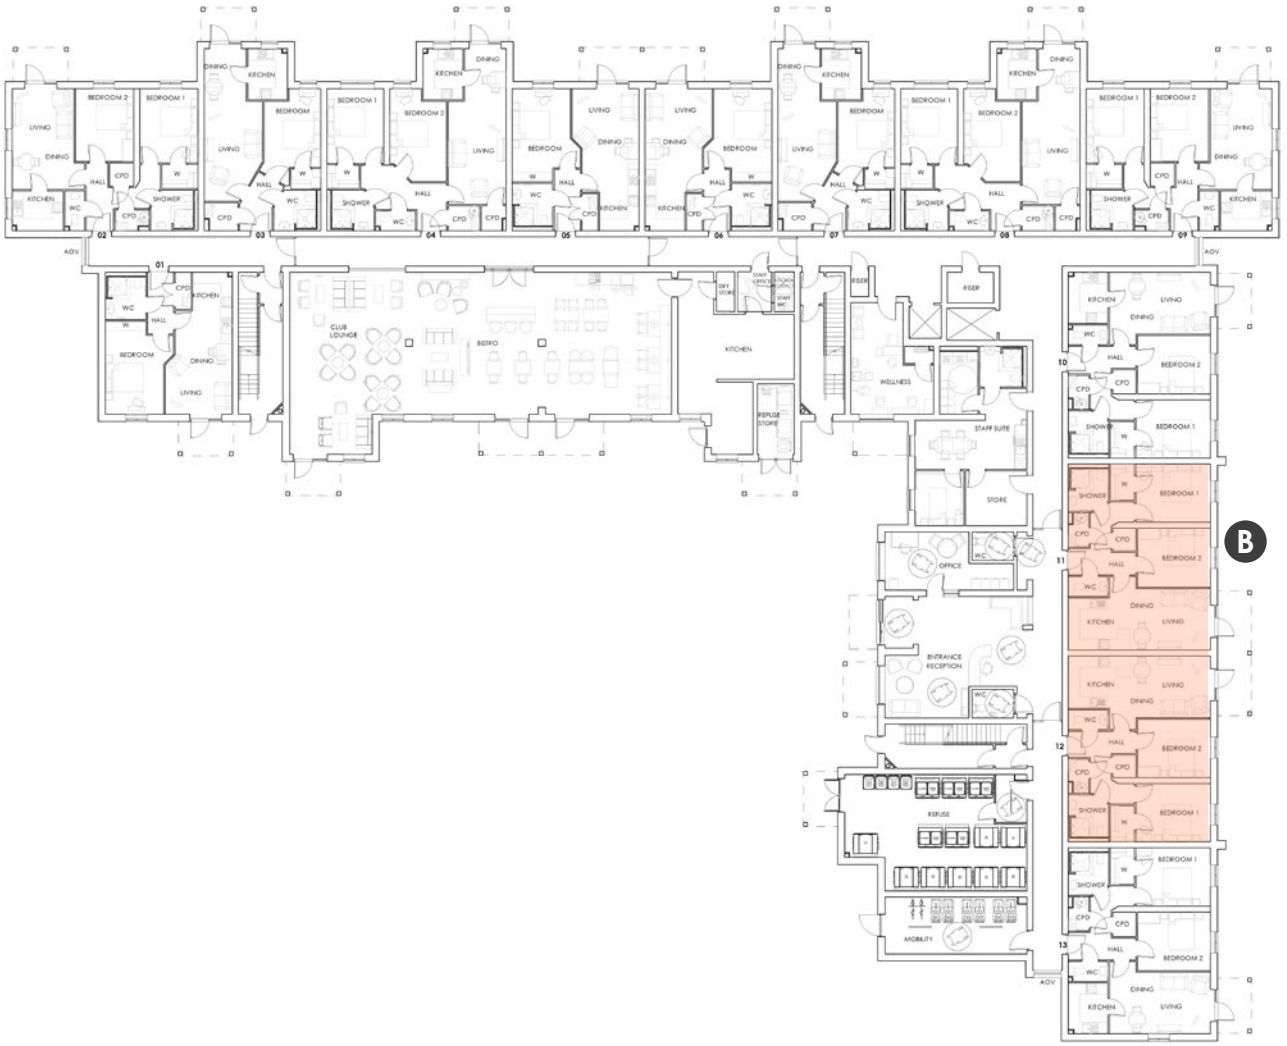

Proposed Site Layout Plan

GROUND FLOOR PLAN

Approved Ground Floor Plan

Proposed Ground Floor Plan

- A** Substation repositioned to southeastern corner of site, now accessed from Church Walk.
- B** Projecting units in central portion of eastern elevation to Church Walk aligned / projection removed, replaced with brick details.

- C** Balcony surrounds removed, replaced by simple balcony posts.
- D** Opaque balustrades to balconies replaced with glazed panels.

- E** Some window depths and location of transoms altered to improve proportions.
