Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	A development of this size in this area is not required and will ultimately have a harmful impact to the community and surrounding area 1) Further pressures on the local GP surgery, which is already at capacity as are other local GP surgeries in the area as well as increased pressure on the local hospital 2) loss of green belt areas and an abundant wildlife habitat within the field and woodland that is being proposed to be built on. 3) Due to poor public transport links to the train stations, the development will result in more traffic on the roads in the local area 4) This in turn will led to increased congestion, pollution and traffic in a semi rural setting. 5) Construction vehicles will need to gain access to site through a residential road which is dangerous and will also increase traffic and pollution 6) Increased housing will put pressure on local utilities, so there is uncertainty around water supplies 7) The plan is inappropriate in size and has little benefit to the local community

Kind regards
