Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	As someone who has ties to this road, I know how hectic parking can be. This planned development will cause absolute chaos for parking. The residents should be prioritized as they already have few options for parking. The building itself is also unfit for the purpose they want it to be used for. Its small footprint means there will need to be more work done to it, which means further disruption to residents on that road. If that is needed, Where will they put skips? Work machinery? This has not been thought out. I am also concerned that the parties involved are drumming up artificial supports through various means.

Kind regards
