

Dear Mrs Sharon Sahota,

Following our phone conversation here are my concerns about the planning application for 33 Bellman Avenue, Gravesend, Kent, DA12 1RF. Reference number.

Firstly, this erection will block out the sunlight [REDACTED] garden, and it will also block the Sun getting [REDACTED] solar panels, which I will rely on as a bit of extra income to top up my pension.

Secondly, it will invade the privacy overlooking [REDACTED] garden.

Thirdly, the extension will be built over a main drain.

Lastly, I feel that this application will ruin the look of the bungalow itself.

Attached are photos showing the sun position on [REDACTED] garden, solar panels and drain.
